Dear Vernon -

Re history.

- ① Would you be willing to confide in me who this was?
- ② Have you saved any papers (or memory engrams) that could document the flow of ideas between ~~Rodoff~~ Rockefeller and Columbia before 1946?
- ③ Do you think one could still find Demerec's papers re the planning of the 1946 CSH Symposium?
- ④ Are copies of these 5 of M symposia still in print?
Stanford library doesn't have them!
